

S.M.D. JANULI TARINYA SAMARaweera

TRAINEE SOFTWARE ENGINEER

PROFILE

An ambitious fourth-year undergraduate with a strong passion for Software Engineering and Business Analysis. Skilled in software development, system analysis, requirements gathering, and problem-solving, with hands-on experience in developing scalable web and mobile applications. Experienced in stakeholder communication, wireframing, workflow analysis, and project coordination. Eager to contribute analytical thinking, technical expertise, and innovative solutions to impactful projects while continuously growing professionally.

PROJECTS

1. Online Apparel Manufacturing Management System

Developed a MERN stack web app for inventory and order management with real-time tracking and admin dashboard. Tech: MongoDB, Express.js, React, Node.js

2. Online Bidding System Website

Built a platform for real-time product/service bidding with secure payment handling.

3. Task Manager Web App

Created a MERN-based task management system with reminders, priority settings, and progress tracking.

4. Clothing App (Android)

Developed a mobile app to browse clothing items with categories and filters.

5. NoteList App (Android)

Built a note-taking app with reminders, cloud sync, and sharing features.

6. Membership Management Web App

Designed a system for user registration, payments, and membership tracking with admin dashboard. Tech: MongoDB, Express.js, React, Node.js

7. Medical App (Android)

Developed a basic app for doctor-patient interaction and appointment management.

8. Day Planner App (Android)

Created a daily planner with scheduling, reminders, and notifications.
